Despite increasing demand for outdoor recreation in our province, the Government of Alberta will be removing **nearly a third of all campsites** (over 4,000 sites) from our provincial parks system.

Areas that will be hit especially hard include the popular Kananaskis Country parks system. Approximately 31% of the planned campsite closures and removals will occur in this area.

You can help save these campsites! Visit bit.ly/DefendABParks to voice your concern.
